

Coactuate

Manager

Who are we?

Coactuate is a boutique management consultancy that helps leading, global life sciences and healthcare organizations bring form to their vision and translate robust forward thinking into aligned strategic action. We are a multi-disciplinary team of strategists, designers, biomedical communicators, and scientists with unique skills and talent to tackle ambiguous and complex challenges through the integration of strategic and design-thinking methodologies.

We are proud of our fast-paced, creative, and highly collaborative studio environment. We believe that all our individual voices matter and that we can achieve more together. Each of our team members lead with heart, curiosity, and above all, the drive to impact positive change.

At Coactuate, we are focused on building leaders. We believe in the power of a high touch apprenticeship with constant feedback, safe stretch roles, and 'space' to try new approaches. We strive to offer our team the most enriching experiences through maximum exposure to executive level decision-making and thinking. We are also committed to work-life balance and strive to maintain an environment where people do not sacrifice their professional and personal needs.

What is the role?

At Coactuate, Managers are an integral part of our multidisciplinary teams. They oversee various client projects and also contribute to the development of our studio. Specific responsibilities of the role may include, but are not limited to:

- Ensure successful design and delivery of client projects
- Lead project-specific client meetings, including co-creative workshops, and manage specific client relationships on projects
- Contribute to training and onboarding of new hires by generating content and facilitating sessions
- Support business development (e.g., contributing to proposals)

What is required for the role?

- Advanced degree (Master's Degree or higher) with a strong record of academic accomplishment
- 5+ years of work experience in healthcare, life sciences, or consulting
- Demonstrated interpersonal awareness and ability to collaborate with others, manage competing interests, and ensure all viewpoints are considered
- Strong oral, written, and visual communication skills, with an ability to prioritize relevant information and tailor to the level and experience of the audience
- Track record of thoroughness and attention to detail when supporting the project team on deliverables or preparing for internal and client meetings
- Experience planning and managing projects and teams, adapting to changing workload priorities, and proactively communicating with relevant stakeholders on progress
- Excellent critical thinking skills and experience using frameworks to support analysis and sensemaking

How can you set yourself apart?

- Past experience in strategy consulting
- Knowledge of pharma/biotech and/or healthcare
- Understanding and experience applying broader set of strategy methodologies, creative thinking approaches, and design thinking tools
- Experience in designing and facilitating co-creative workshops

What is your mindset?

- A natural leader
- Collaborative
- Open to new ideas and ways of working
- Fearless when faced with new challenges
- Calm under pressure
- Self-directed to excellent work outcomes
- High comfort with ambiguity and conceptual thinking
