

Coactuate

Senior Associate (Science)

Who are we?

Coactuate is a boutique management consultancy that helps leading, global life sciences and healthcare organizations bring form to their vision and translate robust forward thinking into aligned strategic action. We are a multi-disciplinary team of strategists, designers, biomedical communicators, and scientists with unique skills and talent to tackle ambiguous and complex challenges through the integration of strategic and design-thinking methodologies.

We are proud of our fast-paced, creative, and highly collaborative studio environment. We believe that all our individual voices matter and that we can achieve more together. Each of our team members lead with heart, curiosity, and above all, the drive to impact positive change.

At Coactuate, we are focused on building leaders. We believe in the power of a high touch apprenticeship with constant feedback, safe stretch roles, and 'space' to try new approaches. We strive to offer our team the most enriching experiences through maximum exposure to executive level decision-making and thinking. We are also committed to work-life balance and strive to maintain an environment where people do not sacrifice their professional and personal needs.

What is the role?

At Coactuate, Senior Associates are an integral part of our multidisciplinary teams. Specific responsibilities of the role may include, but are not limited to:

- Ensure successful delivery of specific tasks within and across projects
- Engage with clients during regular client meetings and written communications
- Support informal recruitment efforts by maintaining professional networks
- Contribute to internal initiatives that further develop our studio

What is required for the role?

- Advanced degree (Master's, PhD) in science disciplines (e.g., life sciences, health sciences, medical sciences) with a strong record of academic accomplishments
- 3-4 years of work experience
- Demonstrated interpersonal awareness and ability to collaborate with others, asking great questions, and understanding interpersonal dynamics in a given situation
- Strong oral, written, and visual communication skills, with an ability to prioritize relevant information
- Track record of thoroughness and attention to detail, ensuring high quality work is delivered on time
- Critical thinking skills, including making sense of large volumes of unorganized information, identifying linkages or potential cause-and-effect relationships, and selecting appropriate conclusions based on established criteria

How can you set yourself apart?

- Experience in life sciences consulting, medical communications, or related fields
- Knowledge of pharma/biotech and/or healthcare
- Understanding of core strategy tools and methodologies

What is your mindset?

- Collaborative
- Open to new ideas and ways of working
- Fearless when faced with new challenges
- Calm under pressure
- Self-directed to excellent work outcomes
- High comfort with ambiguity and conceptual thinking

Interested? What do you do now?
